Dear Sir,

RE: REQUEST TO POSTPONE MY PROJECT

This is to humbly write to you due to the above stated reason. I am called Hadijah Kyampeire, a winner of the Young ICT innovators Category ACIA 2017 – under the project innovation called Beehive Intrusion and Honey Monitoring System.

I am writing to request you to kindly postpone my project until July 2018(though I can not confirm the actual date because I will be moving back to work from Uganda), but as soon as I arrive I will notify the ACIA coordinators.

I got a four-year contract job at Andela Uganda Limited as a software developer that began in December 2017, however, I will be in Nairobi Kenya for 6 to 7 months as I partake training before I can come back to Uganda in July 2018. As the project lead, my team mates are unable to harmonize and cooperate with me in completion of the project since I will be in Kenya and they are also distant from each other.

So with this, I am requesting that you withhold the disbursement of the funds since the activities to be done on the project require my presence in Uganda.

Your consideration is highly appreciated.

Yours sincerely,
Hadijah Kyampeire
